

Solutions Guide

Portable Surface Roughness Tester Surftest SJ-220

A portable surface roughness tester designed like a hand tool for easy on-site use.

Convenient portability and one-touch measurement functionality have been updated for comfortable operability.

- Intuitive operation through touch screen
- Large display is easy to see and use

Battery powered to enable measurement anywhere. Supports 25 languages. Expand functionality by linking to a smartphone, PC, or similar device. Optional Bluetooth capability.

Upgrade your cutting technology with existing tools

Seco® Round 20

Unlock the next level of performance and flexibility in copy milling

Broaden your application area

The Seco® Round 20 copy milling cutter with round inserts is suitable for various copy milling applications, including face, side, slot, plunge, and ramp milling. The array of insert grades tackle steel, stainless steel, heat resistant superalloys, cast iron, and hardened steel.

Key Benefits:

- Indexed inserts = fewer changeovers
- Tackle a wide range of materials
- Replace cassettes, not cutter = lower cost

Octomill™ 06

Face Milling Cutter

From roughing to finishing in every material

Multi-insert pocket design can handle three different insert types to meet different application demands: face milling, moderate high feed milling and round inserts for profiling.

Key Benefits:

- One pocket. Three insert types.
- Outperforming existing octagonal systems
- Easy and secure handling
- Utilization of more cutting edges

Seco Provides
Products And Solutions For
The Metal Cutting Industry.

335.98

Disc Milling Cutter System

Machine two sides of a part securely and efficiently

New innovative tool design for half-side and face disc milling operations significantly lowers tooling costs while maintaining competitive part pricing and profit margins.

Key Benefits:

- 8 cutting edges = up to 60% cost savings
- Removes two sides at once = Higher Material Removal
- Insert geometry = robust and reliable engagement

High Performance!

Stabilizer™ End Mills

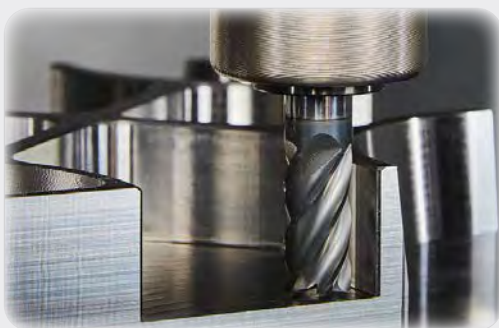

Maximizes stability & metal removal rates

The unique flute geometry of the solid end mill Stabilizer series reduces vibration in the machining process and increases the overall stability for more productivity.

Key Benefits

- Reduces vibration = better surface finish
- Coating = SIRON-A enhances wear resistance, boost tool life
- Great for 2D applications like pocket and slot milling

Call your local SB Simpson for additional information!

E697 Spiral Point & E698 Spiral Flute **Highly Productive** **Multi Application Taps**

DORMER

Versatile geometry prevents both clamping in medium to high strength materials, and oversized threads in soft materials.

Modified edge treatment and rounding increases cutting edge stability and reduces the risk of edge chipping.

3-Radii flute profile provides maximum control of the cutting properties and secures proper swarf flow.

TiCN coating grants high wear resistance combined with low coefficient of friction.

Unique Powder Metallurgy HSS-E PM substrate provides excellent combination of toughness and edge hardness.

EXCELLENT IN STEELS
and versatile for a variety of other materials.

EXTENDED TOOL LIFE
and long term consistency.

HIGH PROCESS RELIABILITY
secured by nesting prevention.

COLD WELDING PROTECTION
throughout the whole life span.

HIGH PERFORMANCE
without compromise on tool life.

TOUGHSTRIPE®

BRADY®

Family of Floor Marking Tapes

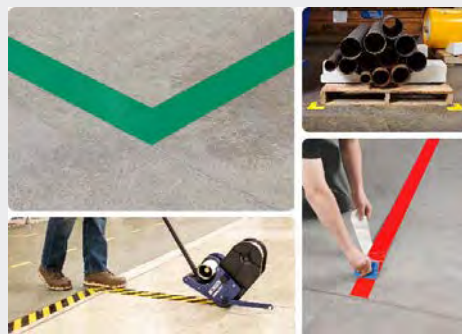

Stick it to smooth, gritty, ice-cold, heat-soaked, washed-down, dried-up, forklift-bruising, foot-traffic floors

ToughStripe® Floor Tape

Tried, true and fiercely versatile
Comes in the widest range of color, shape and customization options for aiseways, area marking, Lean/5S or any and every markable space
Goes down and stays down up to 3 years
Exceeds ANSI 137.1 safety standards for clean, dry non-slip surfaces

ToughStripe® Max

Built stronger to last longer
Engineered thin and more rigid to better withstand damaging impacts
Designed for long floor marking application periods in forklift and heavy traffic areas
Thinner profile and true edge-to-edge adhesive minimize pick point

Make your mark with the right floor tape colors, patterns and targeted applications

Call for detailed information for sizes, colours and pricing!

ToughStripe® Cold

Unrelenting in unforgiving temps
Ideal for industrial freezers, food and beverage facilities, refrigerated warehousing and anywhere cold is king
Sticks to cold surfaces as low as 0°F
Withstands heavy foot traffic and medium vehicle traffic

ToughStripe® Vinyl

Mark, remove, repeat, relax
Vinyl floor tape option ideal for short-term marking in high-turnover areas
Easy to apply, easy to remove and easy on your budget
Good chemical, oil and water resistance

Needlestick Gloves

Needlestick gloves are designed for workers who regularly encounter sharp objects like glass, needles, cables, or metal punctures on the job. Our needlestick gloves use technology like ArmorCore and Durahide leather to help keep workers' hands safe from puncture hazards without sacrificing comfort or dexterity. All our needlestick gloves meet ASTM F2878 Level 2 standards of protection.

Needlestick Original® Cut-Resistant

A5 cut protection. Gunn style palm construction allows for additional needlestick & cut protection to sides of fingers. Form-fitting TrekDry helps keep your hands cool and comfortable. Adjustable Thermoplastic Rubber (TPR) wrist closures create a secure fit. HiRoller rollover fingertip construction provides added protection and durability. Touchscreen capable synthetic leather provides the perfect blend of dexterity and durability.
#NSMG-08 Sizes Sm - 2XL

\$46⁵⁷ /pr

High-Visibility Needlestick

Designed for those who handle glass, needles, sharp blades, or cables on the job. The combination of high-performance Durahide Leather and ArmorCore needlestick resistant technology across key areas of the fingertips and seams helps block, deflect, and minimize injuries from sharp objects without sacrificing dexterity, breathability, and comfort. 3mm EVA padding delivers additional protection to the knuckles. Water-resistant leather palm protects from harmful fluids. HiRoller™ fingertip design. #NSIND-91 Sizes Sm - 2XL

\$52¹⁵ /pr

Law Enforcement Leather Needlestick

Deliver essential protection against hypodermic needles, blades, and other sharp threats that Police Officers, SWAT units and Corrections officers may encounter while on duty. Durahide FR Goat Skin leather. 360° cut liner to ensure essential protection from needlesticks, cuts and punctures as well as hot-stamped grip overlays on the fingers and palm for improved durability, grip, and comfort while on the job. ANSI A7 certification.
