

3-Mat Entry System

Protect your floors and the people who walk on them this fall

80% of dirt, dust, and moisture brought into a building can be contained within the first 9 to 15 feet with proper matting, according to the Carpet and Rug Institute. The 3-Mat Entry System by M+A Matting was developed for this very reason. The 3 mat types that make up this system are scraper mats, WaterHog (scraper/wiper) mats, and carpeted (wiper) mats.

A 3-mat entry system helps keep your floors clean, dry, and safe.
