JS-210 PORTABLE SURFACE ROUGHNESS TESTER

A small, lightweight, and extremely easy to use surface roughness measurement instrument that lets you view surface roughness waveforms right on the color LCD screen.

- Built-in 2.4-inch color graphic, back-lit LCD display provides excellent readability, improved visibility and is easy-to-use in dark environments
- Operation keys are clearly defined on the front of the unit and under the sliding cover
- Internal memory stores up to 10 measurement conditions and one measured profile
