Airplus® Vision® X81VX PAPP System Kit

PAPP kit for high performance welding applications. Welding helmet combines the long battery life, with the unparalleled optical clarity and sensitivity of the welding hood. For industrial welding applications where respiratory protection is required. With an APF level of 25, keeping away harmful gases, vapors, particulates, and fumes (dust, steel, manganese, stainless steel, chromium, galvanized steel, cadmium, lead and ozone*). NIOSH approved #AP1K-V-X81VX SB#80-09017

Introducing the Next Generation in Welding & Grinding Protection

Experience unmatched versatility and comfort with our new lineup of premium headtops—engineered to pair seamlessly with a flip-front ADF for welding or a high-clarity visor for grinding. Whether you choose the **Defender Hard Hat** or the **MaxShield**, you'll get ultra-durable protection that meets both ANSI and CSA standards.

Step up to clearer vision with the **X90VX ADF**, featuring an expansive viewing area, 1-amp TIG capability, Auto-Shade, Shade Lock, and more. Prefer grinding? Our large ANSI/CSA-approved visor delivers exceptional visibility and impact protection. And with a modular design, each headtop can be used with or without the flip-front ADF.

Choose the configuration that fits your workflow:

1. Defender (Hard Hat) PAPR with Flip-Front ADF
2. Defender (Hard Hat) PAPR with Visor
3. MaxShield PAPR with Flip-Front ADF
4. MaxShield PAPR with Visor

Powering it all is the **New & Improved PeakAir PAPR Blower**, built for performance at any elevation. Now redesigned with:

- High-Altitude capability up to **8,500 ft plus** an intuitive **LCD panel**
- Reinforced **waistbelt with suspenders** for day-long comfort
- **USB-C battery** with fast charging
- A streamlined multi-charging station for simplified fleet management

Stronger Protection. Smarter Design. Maximum Visibility.
This is the new standard in powered air respiratory safety.

ALLEGRO
INDUSTRIES

NEW!

MAXSHIELD® flip-front Grinding/Welding (SAR) is a headtop that exceeds expectations with its durable construction, large viewing area, sturdy adjustable headgear, quick and easy visor installation and removal. Providing full-coverage, combined respiratory, eye and face protection, the **MAXSHIELD®** is designed to help complete the tough jobs in comfort.

DEFENDER Supplied Air Shield and Welding Helmet uniquely provides all in one head, eye, face and respiratory protection against hazardous airborne contaminants and flying debris. It delivers a constant and plentiful supply of clean purified air. Our superbly balanced **DEFENDER** Supplied Air Shield is designed for when head protection is needed.

Non-Woven Flap Discs

Vortex aluminum oxide agglomerated grain saves time and labor by handling both the medium- and fine-grit steps in manufacturing, industrial, welding and transportation applications. Use the disc on soft metals, super alloys and stainless steel to get rid of rust and coatings and to produce a smear-free surface. The thick nylon web lasts twice as long as comparable discs and cuts down on finishing time, while ensuring minimal shedding.
