PVC Collapsible, Roll-Up Spill Berm

Is a useful catch-all for small leaks and spills. This flexible collapsible spill containment berm can fold and roll into a compact size when not in use. When folded, these spill berms are no bigger than the standard closed umbrella. However, when needed, the spill berm can easily unroll and be deployed. As a portable spill berm, it also provides peace of mind when filling items like bottles with oils or other chemicals-catching the inevitable overflow or spills and keeping the area clean. 3 Sizes Available

- 2' x 2' x 6"
- 3' x 3' x 6"
- 4' x 4' x 6"

Versatile Spill Containment & Storage Trays

Handy spill containment trays for storage of containers for chemicals & hydrocarbons. Or, use these for containment of spills from leaky parts, greasy tools, equipment & small engines. Constructed from UV-stabilized PE, all spill trays are chemical resistant and fully recyclable.
